FAQ's

Quick answers to key questions about our offerings.

1. What types of startups do you invest in?

We provide investment support in early-stage startups across various sectors like technology, healthcare, agro, sustainability etc. We are sector agnostic while selecting startups.

2. What support do you offer besides funding?

Besides funding support, we provide mentorship, business connections, tech building support and strategic advisory services to help startups grow.

3. How do I apply for funding through Incuboo Ventures?

You can apply by submitting your contact details and pitch deck through our website. You can also drop us an email at contact@incuboo.com. Our team will review and get in touch if there's a fit.

4. What is the investment process like?

Our investment support process involves an initial screening, followed by meetings and due diligence, culminating in funding if there's a mutual agreement.

5. What is the typical investment amount?

Our investment support vary depending on the startup's needs and stage, but typically investment amount is between 50 Lakhs INR to 1 Crore INR.
